This is a small curving road. After about 3/4 minutes, and BEFORE passing under the E45 motorway, you will see a white house on the right, TURN LEFT here at the blue sign SAN LORENZO and the MADONNA dei CONFINI,  
It should take around 10/12 minutes in total from the San Lorenzo road to Moravola, follow this road up the hill. After around 7 minutes the tarmac road changes to a white gravel road, this is 2 kilometres from Moravola, it passes on the left an old stone building the church of the Madonna dei Confini. Continue straight ahead around a few bends always following our logo sign on the trees:

Continue along the highest point of the mountain ridge, then descend slightly and pass between two houses (the left one has a wooden sign 'Monte Caiberta bio products') The road immediately curves steeply down left, It then divides into three, the central one is Moravola.
